

## 'Urban Front launches contemporary doors to the market'

**Urban Front** design and manufacture quality contemporary exterior solid wood doors which can be ordered in six different hardwoods and many different sizes.

This new product is completely unique and introduces a stylish alternative to traditional exterior doors. Combining stainless steel, glass and wood, the doors are specially designed to suit the more contemporary residential or commercial property.

### *The Products*

There are 15 door designs to choose from and two ranges; classical, for the more traditional property and urban, for those built in a more contemporary style. The doors can be ordered in: Western Red Cedar, American Walnut, Wenge, Iroko, Idigbo and European Oak. There are 4 different sizes, however a bespoke service is available.

Urban Front also supply garage doors by Hormann to match the doors, handles by Randi, and door mats by Fussmatten.

Prices start from £525 + VAT

### *The Founders*

Urban Front is run by two designers who have worked in the fields of property developing and interior design for over 15 years. The idea arose when they tried to find a contemporary front door for a seventies house and were unsuccessful - realising a niche in the market.
